SUMMARY

Java and MERN full-stack developer (BCA, CGPA 9.21; MCA in progress) with three deployed projects built on REST APIs, JWT security and React. Open to internships and entry-level Software Developer / Full Stack roles.

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML, CSS

Backend: Spring Boot, Spring MVC, Spring Security, Node.js, Express.js, REST APIs, JWT, Role-Based Access Control

Frontend: React.js, React Router, Context API, Tailwind CSS, Bootstrap

Databases & Tools: MongoDB, MySQL, Git, GitHub, Docker, Maven, IntelliJ IDEA, VS Code

Concepts: OOP, MVC Architecture, Authentication & Authorization, CRUD, Data Structures

PROJECTS

Jira Issue & Team Management API | *Java 17, Spring Boot, MongoDB, JWT, Docker* Live Demo | GitHub

- Built a role-based issue management REST API with 18 endpoints for user management and bug/story workflows (testers raise bugs, developers create stories, managers review).
- Secured it with a custom stateless JWT filter, BCrypt hashing and @PreAuthorize rules on a role hierarchy (Admin > Manager > Developer/Tester); users can only access their own issues.
- Stored data in MongoDB; containerised with a multi-stage Docker build, deployed on Render and documented in the README.

CalTrack – Fitness Tracking Application | *MongoDB, Express.js, React.js, Node.js* Live Demo | GitHub

- Built a full-stack fitness tracker with JWT authentication, bcrypt hashing and 23 REST endpoints for workouts, diet logs, goals and a community leaderboard.
- Developed the React frontend with protected routes, Context API, Recharts progress graphs, a calendar view, BMI calculator and dark mode; deployed on Vercel.

To-Do List App | *Spring Boot, MongoDB, JWT, React* Live Demo | GitHub

- Built a Spring Boot REST API (10 endpoints) with stateless JWT, BCrypt and per-user task ownership checks, backed by MongoDB.
- Built the React single-page frontend with React Router, Context API, Axios and React-Bootstrap; deployed on Netlify (frontend) and Railway (API).

EXPERIENCE

MERN Stack Development Intern, *Shri Sahib Tech (remote)* June 2025 – July 2025

- Built full-stack features with the MERN stack, REST APIs and JWT-based authentication.

EDUCATION

MCA, Computer Science – C-DAC, GGSIPU Expected 2028

BCA, Computer Science – Institute of Information Technology & Management, GGSIPU 2026 | CGPA: 9.21/10

Class XII & X (CBSE) – Spring Meadows Public School 2023: 90.6% | 2021: 85.2%

ACHIEVEMENTS & ACTIVITIES

- Winner, AI Innovators competition organised by the AIEC cell of IITM group of institutions.
- Winner, Inter-Zonal Tug of War (sub-junior); volunteer with the Eco Club and at Fiesta 2K24 and 2K25, IITM.
